Vanquished by Dr. Miles' Remedies.

MR. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. Mr. J. R. Sidley writes Oct. 25, 1895: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them."

## NO MORE DOUBTS

The Administration Said to Believe War is Now Inevitable.

MADRID ALONE CAN AVERT IT.

Consul General Lee Ordered to Leave Havana Tomorrow.

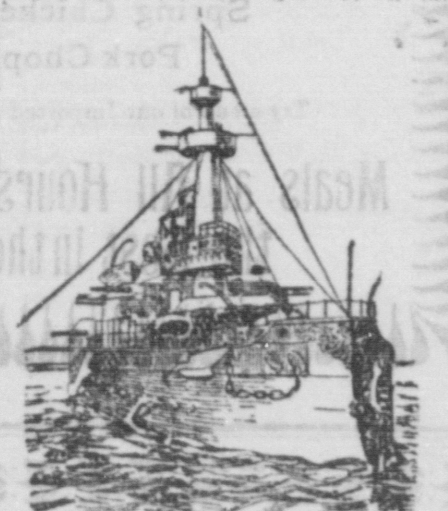

NOTE OF THE POWERS HAS NOT CHANGED SITUATION.

Conservative Senators Have Given Up All Hope of a Peaceful Settlement. Scene of Excitement in the House of Representatives—The Ram Katahdin Sails Suddenly Under Sealed Orders. Miss Clara Barton Advised to Leave Cuba.

Washington, April 8.—There is no longer any doubt as to the purposes of this government with respect to the situation in Cuba. War in the opinion of the administration is inevitable, except in the unlikely event of a surrender on the part of Spain.

The president's message has not been changed in any particular and embodies the unanimous views of the cabinet without the slightest variance or exception. Any movement to avert war now must come from Madrid and must concede American demands, including an end to Spain's domination in Cuba. Three features stand out plainly in the recent developments. Six of the great powers of Europe, through their representatives, called at the White House yesterday and presented to President McKinley a joint note expressing urgent hope for a peaceful adjustment between United States and Spain, to which the president replied with unmistakable plainness as to the duty and the unselfish endeavors of this government to terminate the insufferable conditions in Cuba.

Another, and probably the most significant active step, showing the finality reached by the United States government, was the authoritative statement that Consul General Lee would leave Havana on Saturday. This step, it is known, will be regarded by Spain as akin to an overt act preceding war, as it will terminate the medium of official

THE ILLINOIS.

intercourse between the United States and the island. Third, and most equally important, was the ominous tone of press advices from Madrid, where the war fever seems to dominate instead of the concessions, the opening of prison doors and the other manifestations of peace and good will which Holy Thursday was expected to bring forth, and the more definite announcement of action that would bring peace to Cuba.

The heavy guard about Minister Woodford's house, the imperative character of his last note, the war utterance of Minister Correo and the turbulence at the Spanish capital left little hope that pacific councils would prevail. No negotiations are proceeding at Madrid on the part of this government, but the powers of Europe, it is understood, are doing their utmost to persuade the Spanish government to yield and avert war. On the highest authority it can be stated that no instructions have been given as yet to Minister Woodford contemplating his withdrawal, the only step in that direction being the determination that General Lee leave Havana tomorrow.

The note of the European powers presented to the president yesterday has not in the opinion of the members of the administration changed the situation in the slightest degree. What pressure was brought to bear to secure even this mildly expressed hope that further negotiations would result in the maintenance of peace is not known, but it is confidently believed that it is the result of persistent appeals on the part of Spain for some expression in favor of peace between the two countries.

The reply of this government is not considered as indicating any change in the fixed purpose of the president to intervene in Cuba, at once, nor is it believed it was the expectation of a majority of the foreign representatives present that the United States should change its policy or regard the joint note as other than an expression in behalf of peace and without special significance.

**WAR IS CERTAIN.**

Congressman Grosvenor Makes Statement in the House.

Washington, April 8.—There was a scene of great excitement in the house late yesterday afternoon during the consideration of the bill for the reorganization of the army. It was caused by Mr. Lentz (Dem., O.), who made a vicious assault on the administration, charging that the policy of delay was in the interest of stock jobbers in Wall street. He alleged that Wall street was in the possession of information that the message would not go in long before it was known at the capitol and profited heavily by the advance in the price of stocks which resulted. He even charged that there was no warrant for the alarming statements about the situation in Havana which were made as a justification for the delay in the message.

Mr. Lentz's speech created a profound sensation and was met with an emphatic reply from General Grosvenor, now generally regarded as the administration spokesman on the floor. Mr. Grosvenor not only indignantly denied that there was justification for the reports, but held Mr. Lentz up to scorn for alleging corrupt motives against the president. Mr. Lentz disclaimed this, but the irate friend of the president gave him no mercy. He was thoroughly aroused and laid about him with a veritable bludgeon charging that the Democrats were seeking political advantage and paying his respects to John J. McCook and others. Before he concluded he expressed the opinion that war was as certain as that we would live until next week, unless it was averted by Spain.

**GIVEN UP HOPE.**

Conservative Senators Now Believe There Will Be War.

Washington, April 8.—At the capitol the situation was ardently discussed among individuals, and came up in public debate in both houses. Senator Morgan of Alabama said he was ready to vote for a declaration of war in discussing an amendment to the sundry civil appropriation bill. In the house a significant declaration was that of General Grosvenor, who declared that war was inevitable.

The opinion in the senate and house is that war must come. Even the most optimistic of the conservative senators have given up hope of a peaceful settlement.

A great deal of consideration was given by senators and representatives to the form of action. On this point there is a wide divergence of opinion, but it has assumed two distinct propositions. One is the recognition of independence of the island coupled with armed intervention to drive out the Spaniards and the other armed intervention with a declaration that Cuba should be free. The desire on the part of those favoring the latter plan being to avoid recognizing the insurgents and their government or any other government until after the United States has control of the island. The latter plan is said to be that of the president, and efforts are being made to have it adopted so there will be no division between the executive and legislative branches of the government.

For is expressed that there may be a long debate in the senate if some compromise is not agreed upon before the committee on foreign relations makes its report.

**UNDER SEALED ORDERS**

The Ram Katahdin Suddenly Leaves League Island.

Philadelphia, April 8.—The ram Katahdin left League Island navyyard under sealed orders late last evening. The ship's destination will not be known until she gets to sea, but it is believed she will go either to New York or Key West. Lieutenant Robert G. Peck, who had been detailed for duty on the monitor Lehigh, was suddenly assigned, just before the ram sailed, to the post of navigating officer of the Katahdin, made vacant by the death yesterday morning of Lieutenant David Daniels. The Katahdin has on her war point and is prepared to do her regular execution with her ram should opportunity present itself. The ram's main battery consists of four guns. She is commanded by Commander George F. F. Wilde, and is

## MINISTER WOODFORD

The United States Representative Makes a Statement.

FALSE REPORTS CORRECTED

The Spanish Government Privileged to Publish His Correspondence—General Correo Says War is Preferable to Humiliation—Pope's Confidential Representations too Late.

Madrid, April 8.—United States Minister Woodford has issued the following statement to the Spanish press:

"The Madrid newspapers are filled with statements concerning the American minister which are so inaccurate that he asks the courtesy of the press to correct them. He does this with the interests of friendship and peace.

"The properties of his diplomatic position forbid his making any statement with regard to his diplomatic action with the Spanish government. But last September the Spanish foreign office received written permission to publish the text of any official correspondence which he should have had at any time with the Spanish government and this permission is effective today. The Spanish government is at complete liberty to publish every word he has ever addressed to the foreign office by letter, memorandum or statement.

"The second secretary of the American legation has sailed for New York to resume the practice of his profession. He has resigned from the diplomatic service. The American minister's wife left with her niece for Paris Wednesday night. She is in poor health and the excitement of the past fortnight has compelled her to seek absence and rest. The daughter of the American minister remains and will remain with him at Madrid. He has not given up his residence, where he expects to reside so long as he shall remain accredited to the Spanish court.

"The American minister has received nothing but courtesy from the people of Madrid. He has never had the slightest apprehension as to his own personal security or that of his family. He is working for peace and, despite all rumors to the contrary, he still hopes peace will be kept between Spain and the United States and that peace will soon be re-established in Cuba, based upon absolute justice, with protection for the great American interests in that island and the maintenance of the honor of Spain."

**POSITION OF CABINET.**

Newspaper Statements Said to Come From the Minister of War.

Madrid, April 8.—Several of the papers published statements by General Correo, minister of war, apparently authentic, in which he denies that the government is threatened with a ministerial crisis. He is represented as saying that when the dispute with the United States entered the acute stage, one minister of the cabinet council remarked: "Gentlemen, since in accepting this post of honor we must be unanimous, showing ourselves ready, if necessary, to sacrifice our lives, we are all resolved to stand firm in this attitude."

"As might be expected," continued the minister of war, "the answer was a unanimous affirmative. Having examined the Cuban cabinet manifesto, I loyally inform my colleagues that I could not sanction the expression—'Cuban nation'—in relation to an armistice, or certain other expressions, especially 'suspension of hostilities,' which could not be employed without dishonoring the army, unless a petition emanated from the insurgents. Senator Moret, desiring to avoid a conflict, criticized the attitude of myself and other ministers, but our arguments convinced him."

"A cable message was immediately dispatched to the governor general of Cuba to the effect that the peninsula governor accepted the manifesto as an accomplished fact, but adhered entirely to the energetic note already sent. Consequently there has been nothing to warrant a crisis."

Referring to the possibility of a conflict with the United States, General Correo is represented as expressing a hope that it may still be averted, "because it is known that President McKinley's message to the American congress will refer neither to independence nor to intervention," General Correo added.

"In thus changing his attitude, President McKinley is pained doubtless to Spain's determined conduct and had we not bowed our heads at the time we suffered our first humiliation we should not find ourselves where we are today. I am not of those who blindly shout 'victory' should there be a rupture and hostilities, but I believe that of the two evils war is preferable to humiliation."

**SENDING REINFORCEMENTS.**

Fifteen Spanish Men of War to Be Sent to Cape Verde Islands.

Madrid, via Paris, April 8.—Fifteen Spanish men of war will leave Cadiz immediately for Cape Verde Islands and several battalions have started to reinforce the garrison at the Balearic islands in the Mediterranean. The provincial militia in the Canaries will be placed on a war footing. Lieutenant General Correo, the minister of war and Admiral Pernejo, the minister of marine, are actively at work in their departments despite the holiday.

**Holy Thursday.**

Madrid, April 8.—Yesterday being holy Thursday, all traffic was suspended. Streets were crowded with ladies, many wearing the national colors in their hair, going from one church to another. The spectators were so numerous in the principal streets that all had to proceed at the very slowest walk. While the crowd was thickest General Woodford, the United States minister, and Miss Woodford walked from the United States legation to their residence. They were recognized by many, but their promenade was not marked by any special incident.

**CAME TOO LATE.**

Pope's Confidential Representations to Spanish Government.

Berlin, April 8.—The Madrid correspondent of The Cologne Gazette says: "The papers of the American consulate have already been entrusted to the care of the British consulate. At midnight the pope made fresh confidential representations to the Spanish government and a second cabinet council was then held. But the reply was to the effect that the pope's intervention had come too late as a decision had already been arrived at."

### POLITICAL BREVITIES.

The republicans "love feast" which was to have been held at Columbus, Ind. April 12, has been indefinitely postponed.

One of the things told to defeat Dan Lester in the democratic primary was that, being a railroad man, he would favor the building of a switch from the Southern Indiana down Broadway intersecting with the B. & O. S. W. tracks. Of course there was no foundation whatever for such a statement, yet it worked to the disadvantage of Lester. Now some of these same men would like to use the same argument against Mr. Goodale. The REPUBLICAN interviewed Mr. Goodale today and learned that he is positively opposed to such a switch and does not believe a street can be so appropriated. The people of the first ward, as well as the city generally, have confidence in the judgment of Mr. Goodale and do not hesitate to trust him.

### BUSINESS NOTES.

Perry & Dedsford last night shipped two cars of fine fat stock to Cincinnati. Will F. Crawford and Miss Sella Crawford, of Jeffersonville, came here last evening on business.

M. L. Weekly, W. H. Slater, A. Graff and son, John Kruse, Hiram Taylor and William Huber, of Spraytown, were in the city last evening. Having carefully examined the fruit buds they say we will have a big fruit yield if nothing intervenes later on.

### Condition of Fruit in the City.

On a close inspection of fruit buds in different parts of the city yesterday and today the following can be relied upon as the present condition, which, barring future damages that may come, insures a fine general crop:—grapes, apples, pears, a full crop. Of only one, the Abundance, is at all hurt, and this one was out nearly all over the tree in full bloom, there being a few blooms that are not out and those are not hurt. Other varieties out in bloom when the cold came on share the same fate. Peaches that were out in full bloom when the cold wave struck us are nearly all killed, but those unopened or even partially showing the bloom are four-fifths of them uninjured thus insuring all the trees will mature. All the small fruits appear to be uninjured and will make a good yield unless subsequently killed.

### In Memoriam.

Occasioned by the death of Miss Stella Jeffries April 3, 1898, the Epworth League, of which she was a member, at their regular meeting on April 7, 1898, adopted the following resolutions:

Just before the bells were ringing for Sunday school, the bells of Time announced the dawning of the rosy morning of Eternity and the angels wafted the spirit of Stella Jeffries home. Her life was a christian success. Her end was fearless, sweet and peaceful and her home is Heaven.

RESOLVED, That we extend to the bereaved family our love, sympathy and prayers.

RESOLVED, That her wonderful faith and sweet submissive spirit be ever cherished in the hearts of the members of the Epworth League.

RESOLVED, The philosophy of her life which has been so beautiful by suffering reminds us "It is the crushed olive that yields the oil, the pressed grape that gives forth the wine."

So it is the broken, contrite heart that is most rich in holiness and most fragrant in grace.

Mrs. J. M. BAXTER,

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printing paper, and tone in the same kind of gold and aristo platinum bath. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

THE OBSERVANCE OF EASTER.

The Discrepancy in Computing the Date Was Not Corrected Until 1752.

"The observance of Easter dates back to about the year 68, at which time there was much contention among the Eastern and Western churches as to what day the festival should be observed. It was finally ordained at the Council of Nice in the year 325 that it must be observed throughout the Christian world on the same day. This decision settled that Easter should be kept upon the Sunday first after the fourteenth day of the first Jewish month, but no general conclusion was arrived at as to the cycle by which the festival was to be regulated, and some churches adopted one rule and some another. This diversity of usage was put an end to, and the Roman rule making Easter the first Sunday after the fourteenth day of the calendar moon was established in England in 669. After nine centuries a discrepancy in the keeping of Easter was caused by the authorities of the English Church declining to adopt the reformation of the Gregorian Calendar in 1582. The difference was settled in 1752 by the adoption of the rule which makes Easter Day always the first Sunday after the full moon which appears on or next after the twenty-first day of March. If the full moon happens upon a Sunday, Easter is the Sunday after."—April Ladies' Home Journal.

## Getting on the Inside

The outward appearance of tailor-made clothing is usually quite good—that depends on the tailor—but it's the inside that should be taken into account. That is what you want to examine, and carefully too. That's the place where the wily tailor—if he be not honest—makes money for himself—and makes his patron lose money. Pretty near time to think about that Spring suit, isn't it? Not quite so busy now as we will be a little later—have more time to be sure everything is perfect. Drop in and examine the Spring suitings.

## Riehm, The Tailor

Suppose you were ready to paint your house. Suppose some one would say "Economy Mixed Paint" is good. Suppose some one would say "Economy Mixed Paint" is not good. Would you not feel interested in having this question decided on its merit and know positively who is right and who is wrong? We have sold Economy Paint for the last twenty years in large quantities in the city and in the country.

Experience is the Best Teacher.

You will find any number of your acquaintances who will endorse it. You will hear just what we say, that it gives entire satisfaction. It is not expensive, is handy because it is ready mixed in any shade, in any quantity having a covering capacity and finish, superior to any in the market.

There may be instances where no paint will do well and is due to certain conditions. Of favorable to painting but where Economy is properly applied and directions complied with we will guarantee good results.

You can safely buy this Paint and get value received.

## Mother's Friend

is the best help you can use at this time. It is a liniment, and when regularly applied several months before baby comes, it makes the advent easy and nearly painless. It relieves and prevents "morning sickness," relaxes the overstrained muscles, relieves the distended feeling, shortens labor, makes recovery rapid and certain without any danger of after-effects. Mother's friend is good for only one purpose, viz.: to relieve motherhood of danger and pain.

One dollar per bottle at all drug stores, or sent by express on receipt of price. Faint books, containing valuable information for women, will be sent to any address upon application to THE BRADFIELD REGULATOR CO., Atlanta, Ga.

## A Spring Speechlet.

Speech making is not in our line. But we can talk a little about business. We prefer, however, to let our business talk for itself. And it is doing it every day in a manner truly gratifying to us.

It doesn't talk in loud and boastful speech, but goes about it in a quiet way clinging strictly to facts and figures.

The People Know Our Goods are Right and They do Not Hesitate to Say so.

This refers not only to our carefully conducted drug and prescription department, but includes

## OUR SODA COUNTER

Nobody sets a standard for us when it comes to soda water. We aim to make it better than the best. Thousands of people were delighted with our soda water last year. We are going to please them more than ever this season. If you are not coming our way you would better join the procession at once. Bring us your prescription work. Always ready for business. Ring bell at door for night clerk.

## A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printing-out paper, and tone in the same kind of gold and artist platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet glass cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

## Getting on the Inside

The outward appearance of tailor-made clothing is usually quite good—that depends on the tailor—but it's the inside that should be taken into account. That is what you want to examine, and carefully too. That's the place where the wily tailor—if he be not honest—makes money for himself—and makes his patron lose money. Pretty near time to think about that Spring suit, isn't it? Not quite so busy now as we will be a little later—have more time to be sure everything is perfect. Drop in and examine the Spring suitings.

## GETTING READY

Every expectant mother has a trying ordeal to face. If she does not

get ready for it, there is no telling what may happen. Child-birth is full of uncertainties if Nature is not given proper assistance.

## Mother's Friend

is the best help you can use at this time. It is a liniment, and when regularly applied several months before baby comes, it makes the advent easy and nearly painless. It relieves and prevents "morning sickness," relaxes the overstrained muscles, relieves the distended feeling, shortens labor, makes recovery rapid and certain without any dangerous after-effects. Mother's Friend is good for only one purpose, viz.: to relieve motherhood of danger and pain.

One dollar per bottle at all drug stores, or sent by express on receipt of price. Pass Books, containing valuable information for women, will be sent to any address upon application to THE BRADFIELD REGULATOR CO., Atlanta, Ga.

## A Spring Speechlet.

Speech making is not in our line. But we can talk a little about business. We prefer, however, to let our business talk for itself. And it is doing it every day in a manner truly gratifying to us.

It doesn't talk in loud and boastful speech, but goes about it in a quiet way clinging strictly to facts and figures.

The People Know Our Goods are Right and They do Not Hesitate to Say so.

This refers not only to our carefully prepared drug and prescription department, but includes

## OUR SODA COUNTER

Nobody sets a standard for us when it comes to soda water. We aim to make it better than the best. Thousands of people were delighted with our soda water last year. We are going to please them more than ever this season. If you are not coming our way you would better join the procession at once. Bring us your prescription work. Always ready for business. Ring bell at door for night clerk.

## A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printingout paper, and tone in the same kind of gold and argo platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

## Getting on the Inside

The outward appearance of tailor-made clothing is usually quite good—that depends on the tailor—but it's the inside that should be taken into account. That is what you want to examine, and carefully too. That's the place where the wily tailor—if he be not honest—makes money for himself—and makes his patron lose money. Pretty near time to think about that Spring suit, isn't it? Not quite so busy now as we will be a little later—have more time to be sure everything is perfect. ### TRAIN BLOWN UP.

Car Loaded With Dynamite Exploded. Three Men Killed.

Great Falls, Mon., April 9.—The worst wreck that ever happened in Montana has occurred on the Montana Central. The dead are: L. Oppenheimer, engineer; Charles W. Crookrell, fireman; and A. J. Martin, head brakeman. A westbound freight arrived at the Dry Forks bridge, 60 miles from here, and proceeded to cross. The train was composed of 16 loads, one a car of dynamite and five empties. When within 25 feet of the bridge the dynamite exploded, wrecking the bridge and tearing 10 cars to kindlingwood. A hole was torn in the earth 50 by 25 feet and five feet deep. Telegraph poles and wires were blown out and communication from Great Falls shut off. The bodies of two of the trainmen were hurled from the wreck which immediately caught fire and was consumed. It is supposed that the car containing the powder was derailed on the bridge and the jolting caused it to explode.

UNGOVERNABLE TEMPER.

Kentucky Farmer Goes Gunning and Finally Kills Himself.

Princeton, Ky., April 9.—Prince Baker, a farmer, living north of town, shot and killed his son-in-law, then shot three times at his daughter yesterday. She wrenched the pistol from his hands. He then went to the field where his brother was plowing and told him he was feeling bad and was going up to his (the brother's) house and lie down. When he got to the house he told his sister-in-law that he was sick and wanted to lie down. He went into a room, shut and locked the door and called to her that he was going to kill himself, and that he wanted his brother to see that he was buried. In a few seconds there was a pistol shot. The brother was summoned, and the door was burst open. Across the bed lay the corpse of Baker with a bullet hole through the heart. Baker was a good citizen but had an ungovernable temper.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unless the urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At drug stores fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamp to cover cost of postage on the bottle. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its pinneness of this offer.

## A Woman's Burden.

This is a story of a woman addressed to women. It is a plain statement of facts too strong in themselves to require embellishment, too true to be doubted, too instructive to be passed over by any woman who appreciates the value of good health.

The women of to-day are not as strong as their grandmothers.

They are bearing a burden in silence that grows heavier day by day; that is sapping their vitality, clouding their happiness, weighing them down with the woe of ill health.

Mrs. Alexander B. Clark, of 417 Michigan Avenue, Detroit, is a typical woman of to-day. A wife with such ambition as only a loving wife can have. But the joys of her life were marred by the existence of disease.

Suffering as thousands of her sisters have suffered, she almost despaired of life and yet she was cured.

To-day she is well! She wants others to profit by her experience; to grow well; to enjoy health; to be as happy as she is.

"For five years I suffered with ovarian trouble," is Mrs. Clark's own version of the story. "I was not free one single day from headache and intense twitching pains in my neck and shoulders."

"For months at a time I would be confined to my bed."

"At times black spots would appear before my eyes and I would become blind. My nerves were in such a state that a step on the floor unsettled me."

California is a Winter Resort.

Every year California becomes more popular for those who desire to escape the rigors of the northern and eastern winters, and it is a peculiar fact that those who have visited this land of sunshine, fruit and flowers return annually to the Golden State. We in the east cannot realize the delights of gathering flowers during the winter months. Did you ever see a field of calla lilies in bloom? Yet is not an uncommon sight in California. Undoubtedly the most delightful route at this season of year to California is via the Southern Pacific Company's Sunset Route, and particular attention is called to the sunset limited annex service now operated between the Crescent City and the Golden Gate leaving New Orleans 8.40 p. m. every Tuesday and Saturday. Via this route one enters California at its most south eastern corner, passes through a valley on each side of which two mountains rear their snowy peaks. Once through this gateway the beauties of California are before you; the thriving farms with blooming orchards, meadows decked with scarlet poppies greet the eye in every direction.

For information regarding the Sunset Route as well as other routes to California apply to any agent of the Southern Pacific Company, or address W. G. Neimyer, Gen'l Western Agent, 238 Clark St., Chicago, Ill.

June 1

"Eminent doctors, skillful nurses, the best food and medicine all failed. Then I consented to an operation. That, too, failed and they said another one was necessary. After the second I was worse than ever and the world was darker than before."

"It was then I heard of Dr. Williams' Pink Pills for Pale People."

"They cured me! They brought sunshine to my life and filled my cup with happiness."

"The headache is gone; the twitching is gone; the nervousness is gone; the trembling has ceased, and I have gained twenty-six pounds."

"Health and strength is mine and I am thankful to Dr. Williams' Pink Pills for Pale People for the blessing."

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three two-cent stamps to cover cost of postage on the bottle. Mention the B. & P. and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its pinnestness of this off.

## A Woman's Burden.

This is a story of a woman addressed to women. It is a plain statement of facts too strong in themselves to require embellishment, too true to be doubted, too instructive to be passed over by any woman who appreciates the value of good health.

The women of to-day are not as strong as their grandmothers.

They are bearing a burden in silence that grows heavier day by day; that is sapping their vitality, clouding their happiness, weighing them down with the woe of ill health.

Mrs. Alexander B. Clark, of 417 Michigan Avenue, Detroit, is a typical woman of to-day. A wife with such ambition as only a loving wife can have. But the joys of her life were marred by the existence of disease.

Suffering as thousands of her sisters have suffered, she almost despaired of life and yet she was cured.

To-day she is well! She wants others to profit by her experience; to grow well; to enjoy health; to be as happy as she is.

"For five years I suffered with ovarian trouble," is Mrs. Clark's own version of the story. "I was not free one single day from headache and intense twitching pains in my neck and shoulders.

"For months at a time I would be confined to my bed.

"At times black spots would appear before my eyes and I would become blind. My nerves were in such a state that a step on the floor unsettled me.

California is a Winter Resort.

Every year California becomes more popular for those who desire to escape the rigors of the northern and eastern winters, and it is a peculiar fact that those who have visited this land of sunshine, fruit and flowers return annually to the Golden state. We in the east cannot realize the delights of gathering flowers during the winter months. Did you ever see a field of calla lilies in bloom? Yet is not an uncommon sight in California. Undoubtedly the most delightful route at this season of year to California is via the Southern Pacific Company's Sunset Route, and particular attention is called to the sunset limited annex service now operated between the Crescent City and the Golden Gate leaving New Orleans 8.40 p. m. every Tuesday and Saturday. Via this route one enters California at its most south eastern corner, passes through a valley on each side of which two mountains rear their snowy peaks. Once through this gateway the beauties of California are before you; the thriving farms with blooming orchards, meadows decked with scarlet poppies greet the eye in every direction.

For information regarding the Sunset Route as well as other routes to California apply to any agent of the Southern Pacific Company, or address W. G. Neimyer, Gen'l Western Agent, 238 Clark St., Chicago, Ill.

## Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

MRS. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. Mr. J. B. Sidley writes Oct. 25, 1895: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them." ## NO MORE DOUBTS

The Administration Said to Believe War Is Now Inevitable.

MADRID ALONE CAN AVERT IT.

Consul General Lee Ordered to Leave Havana Tomorrow.

NOTE OF THE POWERS HAS NOT CHANGED SITUATION.

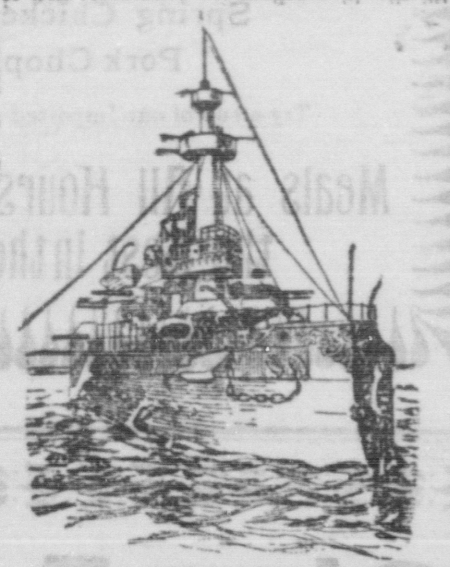

Conservative Senators Have Given Up All Hope of a Peaceful Settlement. Some of Excitement in the House of Representatives—The Ram Katahdin Sails Suddenly Under Sealed Orders. Miss Clara Barton Advised to Leave Cuba.

Washington, April 8.—There is no longer any doubt as to the purposes of this government with respect to the situation in Cuba. War in the opinion of the administration is inevitable, except in the unlikely event of a surrender on the part of Spain.

The president's message has not been changed in any particular and embodies the unanimous views of the cabinet without the slightest variance or exception. Any movement to avert war now must come from Madrid and must concede American demands, including an end to Spain's domination in Cuba.

Three features stand out plainly in the recent developments. Six of the great powers of Europe, through their representatives, called at the White House yesterday and presented to President McKinley a joint note expressing urgent hope for a peaceful adjustment between United States and Spain, to which the president replied with unmistakable plainness as to the duty and the unselfish endeavors of this government to terminate the insufferable conditions in Cuba.

Another, and probably the most significant active step, showing the finally reached by the United States government, was the authoritative statement that Consul General Lee would leave Havana on Saturday. This step, it is known, will be regarded by Spain as a move to an overt act preceding war, as it will terminate the medium of official

intercourse between the United States and the island. Third, and most equally important, was the ominous tone of press advices from Madrid, where the war fever seems to dominate instead of the concessions, the opening of prison doors and the other manifestations of peace and good will which Holy Thurs-

A man who neglects his health is sailing his craft of life in dangerous seas. He cannot too soon awaken to the fact that he is imperiling his most precious endowment. All the wealth in the world, all the power in the world, all the pleasure in the world, all the love and poetry and music and nobility and beauty are but dust in the mouth of the man who has lost his health. Keeping healthy means looking after the disorders that ninety-nine men in a hundred neglect. You cannot get the average, everyday man to believe that indigestion or biliousness, or costiveness or headache or loss of sleep or appetite, or shakiness in the morning and dullness through the day amount to much anyway. He will "pull, push" at you, until some morning he wakes up and finds himself sick as a dog. Then he will send for a doctor and find out to his surprise that all these disorders have been but the danger signals of a big malady that has robbed him of his health, possibly forever. It may be consumption or nervous prostration or malaria or rheumatism or some blood or skin disease. It matters not, they all have their inception in the same neglected disorders. Dr. Pierce's Golden Medical Discovery makes the appetite keen, the digestion perfect, the liver active, the blood pure, the nerves steady and gives sound and refreshing sleep. It is the great blood-maker and flesh-builder. It cures 98 per cent of all cases of consumption. In fact bronchitis, throat and lung affections generally yield to it. Medicine stores sell it. One or two at bedtime cure constipation. Dr. Pierce's Pleasant Pellets. They regulate and invigorate the stomach, liver and

day was expected to bring forth, and the more definite announcement of action that would bring peace to Cuba.

The heavy guard about Minister Woodford's house, the imperative character of his last note, the war influence of the Spanish capital left little hope that pacific councils would prevail. No negotiations are proceeding at Madrid on the part of this government, but the powers of Europe, it is understood, are doing their utmost to persuade the Spanish government to yield and avert war. On the highest authority it can be stated that no instructions have been given as yet to Minister Woodford contemplating his withdrawal, the only step in that direction being the determination that General Lee leave Havana tomorrow.

The note of the European powers presented to the president yesterday has not in the opinion of the members of the administration changed the situation in the slightest degree. What pressure was brought to bear to secure even this mildly expressed hope that further negotiations would result in the maintenance of peace is not known, but it is confidently believed that it is the result of persistent appeals on the part of Spain for some expression in favor of peace between the two countries.

The reply of this government is not considered as indicating any change in the fixed purpose of the president to intervene in Cuba at once, nor is it believed it was the expectation of a majority of the foreign representatives present that the United States should change its policy or regard the joint note as other than an expression in behalf of peace and without special significance.

WAR IS CERTAIN.

Congressman Grosvenor Makes the Statement in the House.

Washington, April 8.—There was a scene of great excitement in the house late yesterday afternoon during the consideration of the bill for the reorganization of the army. It was caused by Mr. Lentz (Dem., O.), who made a vicious assault on the administration, charging that the policy of delay was in the interest of stock jobbers in Wall street. He alleged that Wall street was in the possession of information that the message would not go in long before it was known at the capitol and profited heavily by the advance in the price of stocks which resulted. He even charged that there was no warrant for the alarming statements about the situation in Havana which were made as a justification for the delay in the message.

Mr. Lentz's speech created a profound sensation and was met with an emphatic reply from General Grosvenor, now generally regarded as the administration spokesman on the floor. Mr. Grosvenor not only indignantly denied that there was justification for the reports, but held Mr. Lentz up to scorn for alleging corrupt motives against the president. Mr. Lentz disclaimed this, but the irate friend of the president gave him no mercy. He was thoroughly aroused and laid about him with a veritable bludgeon charging that the Democrats were seeking political advantage and paying his respects to John J. McCook and others. Before he concluded he expressed the opinion that war was as certain as that we would live until next week, unless it was averted by Spain.

GIVEN UP HOPE.

Conservative Senators Now Believe There Will Be War.

Washington, April 8.—At the capitol the situation was ardently discussed among individuals, and came up in public debate in both houses. Senator Morgan of Alabama said he was ready to vote for a declaration of war in discussing an amendment to the sundry civil appropriation bill. In the house a significant declaration was that of General Grosvenor, who declared that war was inevitable.

The opinion in the senate and house is that war must come. Even the most optimistic of the conservative senators have given up hope of a peaceful settlement.

A great deal of consideration was given by senators and representatives to the form of action. On this point there is a wide divergence of opinion, but it has assumed two distinct propositions. One is the recognition of independence of the island coupled with armed intervention to drive out the Spaniards and the other armed intervention with a declaration that Cuba should be free. The desire on the part of those favoring the latter plan being to avoid recognizing the insurgents and their government or any other government until after the United States has control of the island. The latter plan is said to be that of the president, and efforts are being made to have it adopted so there will be no division between the executive and legislative branches of the government.

Fear is expressed that there may be a long debate in the senate if some compromise is not agreed upon before the committee on foreign relations makes its report.

UNDER SEALED ORDERS

The Ram Katahdin Suddenly Leaves League Island.

Philadelphia, April 8.—The ram Katahdin left League Island navy yard under sealed orders late last evening. The ship's destination will not be known until she gets to sea, but it is believed she will go either to New York or Key West. Lieutenant Robert G. Peck, who had been detailed for duty on the monitor Lehigh, was suddenly assigned, just before the ram sailed, to the post of navigating officer of the Katahdin, made vacant by the death yesterday morning of Lieutenant David Daniels. The Katahdin has on her war point and is prepared to do terrible execution with her ram should opportunity present itself. The ram's main battery consists of four guns. She is commanded by Commander George F. F. Wilde, and is manned by a full crew.

## MINISTER WOODFORD

The United States Representative Makes a Statement.

FALSE REPORTS CORRECTED

The Spanish Government Privileged to Publish His Correspondence—General Correo Says War Is Preferable to Humiliation—Pope's Confidential Representations Too Late.

Madrid, April 8.—United States Minister Woodford has issued the following statement to the Spanish press:

"The Madrid newspapers are filled with statements concerning the American minister which are so inaccurate that he asks the courtesy of the press to correct them. He does this with the interests of friendship and peace.

"The proprieties of his diplomatic position forbid his making any statement with regard to his diplomatic action with the Spanish government. But last September the Spanish foreign office received written permission to publish the text of any official correspondence which he should have had at any time with the Spanish government and this permission is effective today. The Spanish government is at complete liberty to publish every word he has ever addressed to the foreign office by letter, memorandum or statement.

"The second secretary of the American legation has sailed for New York to resume the practice of his profession. He has resigned from the diplomatic service. The American minister's wife left with her niece for Paris Wednesday night. She is in poor health and the excitement of the past fortnight has compelled her to seek absence and rest. The daughter of the American minister remains and will remain with him at Madrid. He has not given up his residence, where he expects to reside so long as he shall remain accredited to the Spanish court.

"The American minister has received nothing but courtesy from the people of Madrid. He has never had the slightest apprehension as to his own personal security or that of his family. He is working for peace and, despite all rumors to the contrary, he still hopes peace will be kept between Spain and the United States, and that peace will soon be re-established in Cuba, based upon absolute justice, with protection for the great American interests in that island and the maintenance of the honor of Spain."

POSITION OF CABINET.

Newspaper Statements Said to Come From the Minister of War.

Madrid, April 8.—Several of the papers published statements by General Correo, minister of war, apparently authentic, in which he denies that the government is threatened with a ministerial crisis. He is represented as saying that when the dispute with the United States entered the acute stage, one minister of the cabinet council remarked: "Gentlemen, since in accepting this post of honor we must be unanimous, showing ourselves ready, if necessary, to sacrifice our lives, we are all resolved to stand firm in this attitude.

"As might be expected," continued the minister of war, "the answer was a unanimous affirmative. Having examined the Cuban cabinet manifesto, I loyally informed my colleagues that I could not sanction the expression—'Cuban nation'—in relation to an armistice, or certain other expressions, especially 'suspension of hostilities,' which could not be employed without dishonoring the army, unless a petition emanated from the insurgents. Senator Moret, desiring to avoid a conflict, criticized the attitude of myself and other ministers, but our arguments convinced him.

"A cable message was immediately dispatched to the governor general of Cuba to the effect that the peninsula governor accepted the manifesto as an accomplished fact, but adhered entirely to the energetic note already sent. Consequently there has been nothing to warrant a crisis."

Referring to the possibility of a conflict with the United States, General Correo is represented as expressing a hope that it may still be averted, "because it is known that President McKinley's message to the American congress will refer neither to independence nor to intervention." General Correo added:

"In thus changing his attitude, President McKinley is pouncing doubtless to Spain's determined conduct and had we not bowed our heads at the time we suffered our first humiliation we should not find ourselves where we are today. I am not of those who blindly shout 'victory' should there be a rupture and hostilities, but I believe that of the two evils war is preferable to humiliation."

SENDING REINFORCEMENTS.

Fifteen Spanish Men of War to Be Sent to Cape Verde Islands.

Madrid, April 8.—Fifteen Spanish men of war will leave Cadiz immediately for Cape Verde islands and several battalions have started to reinforce the garrison at the Bolear islands in the Mediterranean. The provincial militia in the Canaries will be placed on a war footing. Lieutenant General Correo, the minister of war and Admiral Pernejo, the minister of marine, are actively at work in their departments despite the holiday.

Holy Thursday.

Madrid, April 8.—Yesterday being holy Thursday, all traffic was suspended. Streets were crowded with ladies, many wearing the national colors in

their hair, going from one church to another. The spectators were so numerous in the principal streets that all had to proceed at the very slowest walk. While the crowd was thickest General Woodford, the United States minister, and Miss Woodford walked from the United States legation to their residence. They were recognized by many, but their promenade was not marked by any special incident.

CAME TOO LATE.

Pope's Confidential Representations to Spanish Government.

Berlin, April 8.—The Madrid correspondent of The Cologne Gazette says: "The papers of the American consulate have already been entrusted to the care of the British consulate. At midnight the pope made fresh confidential representations to the Spanish government and a second cabinet council was then held. But the reply was to the effect that the pope's intervention had come too late as a decision had already been arrived at."

Stole Goods to Reel.

South Bend, Ind., April 8.—Repeated alleged burglaries of W. L. Jowski's grocery made the police suspicious that it was a case of trying to throw them off the scent in many car robberies, and a watch was set, which soon brought to light the fact that Jowski was himself a freight car robber on a big scale. He was caught in the act of stealing goods to sell at his store and he has been bound over the the circuit court.

Nothing But Independence.

Washington, April 8.—Senator Quesada, charge d'affaires of the Cuban junta, when asked to state the position that he now maintains in regard to affairs on the island, made the following statement: "Our position has so often and so emphatically been expressed that the American people cannot misinterpret it. Anything which means the perpetuation of Spanish sovereignty in the island, whatever its apparent liberal form and come from whom it may come, will not be accepted by the Cuban patriots. We oppose any intervention which does not have for its declared object the independence of the island."

Miss Barton Advised to Leave the Island.

New York, April 8.—Stephen Barton, chairman of the central Cuban relief committee, said yesterday that he had received a cablegram from Miss Clara Barton, president of the national Red Cross society, who is at present in Cuba, saying that she had been advised by Consul General Lee to leave the island at once, as it would be unwise for her or any other American to stay later than Friday. Miss Barton said nothing of the condition of affairs in Cuba.

Special Courier for Lieutenant Ord.

Cincinnati, April 8.—Colonel M. A. Cochran, commanding the Sixth regiment of United States infantry at Fort Thomas, sent a special courier to the rifle range on the Licking river last night. This is done so that all the troops may be ready to leave on amendments notice.

Lee Will Leave Tomorrow.

### POLITICAL BREVITIES.

The republican "love feast" which was to have been held at Columbus, April 12, has been indefinitely postponed.

One of the things told to defeat Dan Lester in the democratic primary was that, being a railroad man, he would favor the building of a switch from the Southern Indiana down Broadway intersecting with the B. & O. S. W. tracks. Of course there was no foundation whatever for such a statement, yet it worked to the disadvantage of Lester. Now some of these same men would like to use the same argument against Mr. Goodale today and learned that he is positively opposed to such a switch and does not believe a street can be so appropriated. The people of the first ward, as well as the city generally, have confidence in the judgment of Mr. Goodale and do not hesitate to trust him.

### BUSINESS NOTES.

Perry & Dodsford last night shipped two cars of fine fat stock to Cincinnati. Will F. Crawford and Miss Sella Crawford, of Jeffersonville, came here last evening on business.

M. L. Weekly, W. H. Slater, A. Graff and son, John Kruse, Hiram Taylor and William Huber, of Spraytown, were in the city last evening. Having carefully examined the fruit buds they say we will have a big fruit yield if nothing intervenes later on.

### Condition of Fruit in the City.

On a close inspection of fruit buds in different parts of the city yesterday and today the following can be relied upon as the present condition, which, barring future damages that may come, insures only one, the Abundance, is at all hurt, and this one was out nearly all over the tree in full bloom, there being a few blooms that are not out and those are not hurt. Other varieties out in full bloom when the cold came on share the same fate. Peaches that were out in full bloom when the cold we struck us are nearly all killed, but those unopened or even partially showing the bloom are four-fifths of them uninjured thus insuring all the trees will mature. All the small fruits appear to be uninjured and will make a good yield unless subsequently killed.

### In Memoriam.

Occasioned by the death of Miss Stella Jeffries April 3, 1898, the Epworth League, of which she was a member, at their regular meeting on April 7, 1898, adopted the following resolutions:

Just before the bells were ringing for Sunday school, the bells of Time announced the dawning of the rosy morning of Eternity and the angels wafted the spirit of Stella Jeffries home. Her life was a christian success. Her end was fearless, sweet and peaceful and her home is Heaven.

RESOLVED, That we extend to the bereaved family our love, sympathy and prayers.

RESOLVED, That her wonderful faith and sweet submissive spirit be ever cherished in the hearts of the members of the Epworth League.

RESOLVED, The philosophy of her life which has been so beautiful by suffering reminds us "It is the crushed olive that yields the oil, the pressed grape that gives forth the wine."

So it is the broken, contrite heart that is most rich in holiness and most fragrant in grace.

MRS. J. M. BAXTER,  
FLORENCE GREER,

### Elder Beare Convalescing.

The public and especially the many personal friends of Elder A. F. Beare will be glad to learn that he is convalescing and will soon be out again to resume his duties as the permanent pastor of the Christian church of Seymour where his career has been remarkable. In the twelve months just coming to a close he has added 148 to the church roll, put new life into the church and has gained the hearts of the people to a remarkable degree as is evinced by the overflowing house that greeted him last Sunday night and I would say further that the public may rest assured that the boy preacher will remain with us indefinitely, adverse reports to the contrary notwithstanding.

## A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets of glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we all use the same kind of printing-out paper, and tone in the same kind of gold and aristo platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

## THE OBSERVANCE OF EASTER.

The Discrepancy in Computing the Date Was Not Corrected Until 1752.

"The observance of Easter dates back to about the year 68, at which time there was much contention among the Eastern and Western churches as to what day the festival should be observed. It was finally ordained at the Council of Nice in the year 325 that it must be observed throughout the Christian world on the same day. This decision settled that Easter should be kept upon the Sunday first after the fourteenth day of the first Jewish month, but no general conclusion was arrived at as to the cycle by which the festival was to be regulated, and some churches adopted one rule and some another. This diversity of usage was put an end to, and the Roman rule making Easter the first Sunday after the fourteenth day of the calendar moon was established in England in 669. After nine centuries a discrepancy in the keeping of Easter was caused by the authorities of the English Church declining to adopt the reformation of the Gregorian Calendar in 1582. The difference was settled in 1752 by the adoption of the rule which makes Easter Day always the first Sunday after the full moon which appears on or next after the twenty-first day of March. If the full moon happens upon a Sunday, Easter is the Sunday after."—April Ladies' Home Journal.

## CITY COUNCIL.

Proceedings of the Regular Meeting Last Night.

Council met in regular session last night. The mayor and all members of the council present.

Minutes of previous meeting read by the clerk and approved by the council.

Under the call of standing committees Miller of finance committee reported the interest on city bonds had been paid and that he had in his possession the interest coupons and that the same had been checked up by the committee. On motion coupons were burned.

Schwing for the grade committee recommended that in the matter of opening a 60 foot street between Ross street and Louisville avenue, that no further action be taken only to open the 16 feet alley as ordered by the city commissioners. Adopted.

DeGolyer for the light committee asked for further time to report on the light asked for by residents of the 5th ward.

Price, for the special committee to whom was referred the matter of removing garbage from city, said that committee had advertised for bids.

The city attorney submitted an exhaustive and very clear opinion on the legality of the annexation of Woodstock, holding that the same was not legally done. Report adopted.

City treasurer's report for the month of March was submitted showing a balance on hand at the close of business hours March 31, of \$7292.72.

The city engineer reported that the alley between blocks H. and B., Butler's addition, has not been graded but to grade it would require only a little work. Estimated cost \$5.00.

Engineer also reported that he had made an examination of Mrs. Leckmeyer's fence and found it to be about 18 inches in Brown street. Report received and spread of record and clerk ordered to notify Mrs. Leckmeyer of the engineer's finding.

Report and profile on the matter of draining ground at foot of 7th street referred back with further instructions.

Bills amounting to \$595.82 were allowed.

The bill of the electric light company was referred to light committee.

Burkley reported the following inspectors to serve at the May election: A. J. Ross, W. A. Carter, Frank Woodmansee, T. B. Ridlen, N. M. Shipman, Thomas Whitson.

Voting places were reported by Mr. Burkley as follows: 1st ward, Humes' office and City Building; 2nd ward, Miller & Massman's office; 3rd ward, Dennis Hanlon's shop; 4th ward, H. P. Miller's shop; 5th ward, E. O. Krueger's shop.

A resolution was offered by Shields to pave sidewalk along the south side of city park, from Broadway to Bill street. Price moved an amendment, extending the paving as far west as Ewing street. The amendment met with some opposition yet it was carried by a vote of 7 to 3. But when Goodale, who opposed the amendment, called for a reading of the resolution as amended, all saw the error they were falling into. A reconsideration was moved and the original resolution adopted.

Thompson introduced a resolution to prevent the leaving of yard gates open and thus obstructing sidewalk. Rules were suspended and ordinance read the

second time. A motion to suspend the rules and put the ordinance on its passage was made and then laid on the table thus indefinitely deferring further action on same.

Under the call for miscellaneous business a number of matters of importance were duly considered.

Wm. McCarthy, 122 E. 8th st., Cincinnati, Ohio, writes: "I used Dr. Bull's Cough Syrup in my family with good results." We recommend it to all heads of families as the best.

## Getting on the Inside

The outward appearance of tailor-made clothing is usually quite good—that depends on the tailor—but it's the inside that should be taken into account. That is what you want to examine, and carefully too. That's the place where the wily tailor—if he be not honest—makes money for himself—and makes his patron lose money. Pretty near time to think about that Spring suit, isn't it? Not quite so busy now as we will be a little later—have more time to be sure everything is perfect. Drop in and examine the Spring suitings.

For Councilman First Ward, JOHN A. GOODALE.

For Councilman Fifth Ward, FRANK BRETHAUER.

Hos. W. J. BRYAN has accepted a gold badge from a Southern literary society.

Has the Honorable William forgotten his allegiance to the white metal?—Cincinnati Tribune.

There were those who a year ago attempted to make capital out of the brick street improvement. Does any one think now that Seymour has too many blocks of such improvement?

That Falls City club that passed resolutions criticising the president in such severe terms should be given a chance to enlist as soon as troops are called for. In that event most of them would "go lame."

It was a great disappointment to many of the popocrats who heard Mr. Bryan at Indianapolis that he did not tell them how much better he would have managed the Cuban question had he been elected president.

Flowers From the Pacific Slope.

Chas. W. Milhouse has in his drug-store window seventeen varieties of flowers from Whittier, California, that are attracting much attention. You can see there orange blossoms, magpies, poppies, heliotropes, lillies, castus bloom, a pepper plant, maiden hair fern, breath of heaven and others. One can get something of an idea of California climate at this season of the year by looking at these beautiful flowers. They were sent to Mr. Milhouse, by his brother, Frank Milhouse, Mrs. Cyrus Trueblood, Mrs. Philena Hadley, Mrs. William Andrews, Mrs. Thomas Armstrong, Mrs. Mundenhall and John Armstrong, all of whom have friends and acquaintances about Seymour and over in Jennings county.

Close of the Stanfield School.

The Stanfield school, taught by Miss Edna Scanlon closed Friday afternoon after a very successful term. The patrons generally were present and greatly enjoyed the occasion. The program in the afternoon consisting of recitations, readings, dialogues, etc., was carefully prepared and was well rendered. Rob Blair, of this school, is one of the graduates from this township. At the noon hour an excellent dinner was spread by the mothers of pupils, most of whom were present. Several from Seymour attended and spent a very pleasant day.

### POLITICAL BREVITIES.

Some of the democratic bosses held a consultation yesterday, compared notes, and told each other what they were going to do in order to keep up appearances.

Keynote Sounder is back from Indianapolis where he shook hands with Bryan three times and pledged his support in 1900. The report that he slept with Mr. Bryan Thursday night is denied.

J. O. Staples, who has been one of Munden's political pupils since he came up here from Clark county, thought at one time that all he needed was the support of the bosses, but now he looks at it a little different.

Charley Burkart and J. Tom Arbuckle are embarrassed over that secret meeting at the News office. They claim that the purposes of that meeting have been found out by some who were never supposed to know anything about it.

Thos. McNutt, chairman of the 4th district, notifies county chairman D. H. Waters, that "owing to the unsettled condition throughout the county on account of the probability of war with Spain we have concluded to postpone the love feast which was to have been at Columbus the 13th."

Prof. Cain at Home.

Prof. D. W. Cain, who has had charge of the colored schools at Shawneetown, Ill., the past two years, has come home.

When that town was flooded a few days ago he, seeing the danger that confronted the people, made his arrangements to move quickly if the levy broke. When the levy did break he made a run of ten blocks, thus reaching high ground.

Memorial Exercises.

The Union Veteran Legion observes Appomattox Day today. This afternoon the members of the local legion paraded the streets in accordance with their line of march published Thursday.

Tonight they will be addressed at the Presbyterian church by Attorney John John M. Lewis, Jr. The public is invited.

The strength which comes to us from eating nourishing food is better than stimulation, because it is new strength. The health which belongs to a strong body, well nourished by proper food (properly digested), is the only health that is lasting.

The difference between Shaker Digestive Cordial and other medicines is simply that it helps nature to make strength. It does not profess to cure sickness, except as that sickness is a result of weakness caused by food not properly digested.

Snaker Digestive Cordial will relieve the pangs of indigestion and make thin, sick, weak people as well as if their stomachs had never been out of order. It is a gentle aid to the digestion of nature's strength-maker, food.

At druggists. Trial bottle 10 cents.

### RAILROAD RUMBLINGS

A new time card will go into effect on the Southern Indiana tomorrow.

Our Sister Republic.

Everything in Mexico is so radically different from what we find at home that the tourist is perpetually charmed as well as interested. Its civilization runs back to so many centuries and has left so many enduring monuments, its people are so quaint and picturesque, its scenery so bold and rugged, and its cities so novel in their phases of local life, that one never tires of sightseeing in this charming land. The City of Mexico itself, with its great cathedral, its many churches, its byways teaming with busy life and novel industries, its wonderful environs, the holy sepulchers to which the pilgrimages are made, its palaces, is well worth weeks while many lesser cities are centers of peculiar interest. Thus Guanajuato its catacombs; Zacatecas, the great silver mining center; Guadalajara, the so-called Boston of Mexico and the center of its art life, and Durango, the great iron mining district. The are but a few of the more conspicuous points which the tourist makes stopping places on his journey. Any agent of the Southern Pacific road will take pleasure in giving the inquirer full information, or by writing to W. G. Niemyer, Gen. Western Agent, Southern Pacific Co., 238 Clark St., Chicago, copies of the new pamphlet on Mexico, entitled "Vamos A Mexico," which the Southern Pacific has just issued, will be sent you if you inclose four cents in stamps.

INVENTOR OF LEAD PIPE.

First Suggested by Robert Seydell of Pennsylvania in 1830.

There was born in Milton, Pa., in 1800 a man of wonderful genius, it is said. His name was Robert Seydell, and he died in 1847. Four children survive, two of whom reside here—a son, Jacob Seydell, and a daughter, Mrs. Gray.

Mr. Seydell was a coppersmith and was almost continuously working out some device connected with the machinery in his factory. To him, it is related by some of the oldest citizens of this place, belongs the discovery of the process of making lead pipe, and, like many other inventors, the idea of making the same was stolen from him and further developed to its present form of manufacture.

It was in the latter part of the thirties that the idea suggested itself to him, and the following is the way he wrought it out: He first took a slug, or casting of lead, placing it on a mandrel, or rod of steel, about 16 feet long and an inch in diameter. The mandrel was highly polished, and upon this he drew or rolled out the lead to the full length of the rod, thus giving him an inch bore, and the material was rolled, it is said, to a one-fourth inch, making a total diameter 1½ inches for the pipe. After completing several sections of the length of the mandrel he soldered them together, making the pipe of whatever length he desired.

He put it to practical use by fastening it to pump heads, and also running it from springs to connect watering troughs and springhouses in the country round about here. Being greatly pleased with his discovery and receiving the most flattering of comments from his friends and neighbors in this section, he concluded to make his invention more widely known, and hence made a visit to Philadelphia, taking his device with him.

At the Franklin institute in that city he gave his first exhibition to quite a number of inventors, artisans and mechanics. As it is now related, every one who witnessed it was more than delighted, and so expressed himself in his immediate presence. It was not long that he was allowed to remain in a condition of supreme happiness over his invention, for a short time after he made a disclosure of his discovery, and while yet in Philadelphia, he found out that by the persons to whom he had given an exhibition of the process of making lead pipe his idea had been used and improved upon.—Philadelphia Press.

The mandrel was highly polished, and upon this he drew or rolled out the lead to the full length of the rod, thus giving him an inch bore, and the material was rolled, it is said, to a one-fourth inch, making a total diameter 1½ inches for the pipe. After completing several sections of the length of the mandrel he soldered them together, making the pipe of whatever length he desired.

He put it to practical use by fastening it to pump heads, and also running it from springs to connect watering troughs and springhouses in the country round about here. Being greatly pleased with his discovery and receiving the most flattering of comments from his friends and neighbors in this section, he concluded to make his invention more widely known, and hence made a visit to Philadelphia, taking his device with him.

At the Franklin institute in that city he gave his first exhibition to quite a number of inventors, artisans and mechanics. As it is now related, every one who witnessed it was more than delighted, and so expressed himself in his immediate presence. It was not long that he was allowed to remain in a condition of supreme happiness over his invention, for a short time after he made a disclosure of his discovery, and while yet in Philadelphia, he found out that by the persons to whom he had given an exhibition of the process of making lead pipe his idea had been used and improved upon.—Philadelphia Press.

### Getting on the Inside

The outward appearance of tailor-made clothing is usually quite good—that depends on the tailor—but it's the inside that should be taken into account. That is what you want to examine, and carefully too. That's the place where the wily tailor—if he be not honest—makes money for himself—and makes his patron lose money. Pretty near time to think about that Spring suit, isn't it? Not quite so busy now as we will be a little later—have more time to be sure everything is perfect. Drop in and examine the Spring suitings.

## Riehm, The Tailor

Suppose you were ready to paint your house. Suppose some one would say "Economy Mixed Paint" is good. Suppose some one would say "Economy Mixed Paint" is not good. Would you not feel interested in having this question decided on its merit and know positively who is right and who is wrong. We have sold Economy Paint for the last twenty years in large quantities in the city and in the country.

### Experience is the Best Teacher.

You will find any number of your acquaintances who will endorse it. You will hear just what we say, that it gives entire satisfaction, it is not expensive, is handy because it is ready mixed, in any shade, in any quantity having a covering capacity and finish, superior to any in the market. There may be instances where no paint will do well and is due to certain conditions of unfavorable to painting but where Economy is properly applied and directions complied with we will guarantee good results. You can safely buy this Paint and get value received.

There was another big rush of freight east bound on the B. & O. S. W.

Some of the B. & O. S. W. engines have been sent to the Ohio division to assist in taking a large rush of freight east.

The Southern Indiana has leased engines of the E. & T. H. to assist in hauling 700 cars of dressed stone from the company's quarries at Bedford to the east.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhea. I have never had to use more than one or two doses to cure the worst case of with myself or children. —W. A. ### TRAIN BLOWN UP.

Car Loaded With Dynamite Explodes. Three Men Killed.

Great Falls, Mont., April 9.—The worst wreck that ever happened in Montana has occurred on the Montana Central. The dead are: L. Oppenheimer, engineer; Charles W. Cockrell, fireman; and A. J. Martin, head brakeman. A westbound freight arrived at the Dry Forks bridge, 60 miles from here, and proceeded to cross. The train was composed of 16 loads, one a car of dynamite and five empties. When within 25 feet of the bridge the dynamite exploded, wrecking the bridge and tearing 10 cars to kindlingwood. A hole was torn in the earth 50 by 25 feet and five feet deep. Telegraph poles and wires were blown out and communication from Great Falls shut off. The bodies of two of the trainmen were hurled from the wreck which immediately caught fire and was consumed. It is supposed that the car containing the powder was derailed on the bridge and the jolting caused it to explode.

### UNGOVERNABLE TEMPER.

Kentucky Farmer Goes Gunning and Finally Kills Himself.

Princeton, Ky., April 9.—Prince Baker, a farmer, living north of town, shot and killed his son-in-law, then shot three times at his daughter yesterday. She wrenched the pistol from his hands. He then went to the field where his brother was plowing and told him he was feeling bad and was going up to his (the brother's) house and lie down. When he got to the house he told his sister-in-law that he was sick and wanted to lie down. He went into a room, shut and locked the door and called to her that he was going to kill himself, and that he wanted his brother to see that he was buried. In a few seconds there was a pistol shot. The brother was summoned, and the door was burst open. Across the bed lay the corpse of Baker with a bullet hole through the heart. Baker was a good citizen but had an ungovernable temper.

### WALL FELL.

Several Store Clerks Narrowly Escape With Their Lives.

Greenville, O., April 9.—While laborers were excavating a cellar in a room lying adjacent to Lockwood & Co.'s establishment here, the side wall gave way and fell in, completely demolishing the entire building. Several clerks in the building narrowly escaped with their lives. The fire department was called and prevented a conflagration. The damage to the building and stock will reach \$7,000.

### ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

### CHIEF CAUSE.

Unless the urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passages is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At drug stores fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its punctuality of this offer.

## A Woman's Burden.

This is a story of a woman addressed to women. It is a plain statement of facts too strong in themselves to require embellishment, too true to be doubted, too instructive to be passed over by any woman who appreciates the value of good health.

The women of to-day are not as strong as their grandmothers.

They are bearing a burden in silence that grows heavier day by day; that is sapping their vitality, clouding their happiness, weighing them down with the weight of ill health.

Mrs. Alexander B. Clark, of 417 Michigan Avenue, Detroit, is a typical woman of to-day. A wife with such ambition as only a loving wife can have. But the joys of her life were marred by the existence of disease.

Suffering as thousands of her sisters have suffered, she almost despaired of life and yet she was cured.

To-day she is well!

She wants others to profit by her experience; to grow well; to enjoy health; to be as happy as she is.

"For five years I suffered with ovarian trouble," says Mrs. Clark, "over the story of the story."

"I was not free one single day from headache and intense twitching pains in my neck and shoulders."

"For months at a time I would be confined to my bed."

"At times black spots would appear before my eyes and I would become blind. My nerves were in such a state that a step on the floor unsettled me."

California is a Winter Resort.

Every year California becomes more popular for those who desire to escape the rigors of the northern and eastern winters, and it is a peculiar fact that those who have visited this land of sunshine, fruit and flowers return annually to the Golden state. We in the east cannot realize the delights of gathering flowers during the winter months. Did you ever see a field of calla lilies in bloom? Yet is not an uncommon sight in California. Undoubtedly the most delightful route at this season of year to California is via the Southern Pacific Company's Sunset Route, and particular attention is called to the sunset limited annex service now operated between the Crescent City and the Golden Gate leaving New Orleans 8.40 p. m. every Tuesday and Saturday. Via this route one enters California at its most south eastern corner, passes through a valley on each side of which two mountains rear their snowy peaks. Once through this gateway the beauties of California are before you; the thriving farms with blooming orchards, meadows decked with scarlet poppies greet the eye in every direction.

For information regarding the Sunset Route as well as other routes to California apply to any agent of the Southern Pacific Company, or address W. G. Niemeyer, Gen'l Western Agent, 238 Clark St., Chicago, Ill.
